# StoneLime™

SurfaceDesign

StoneLime™ is a new material for creating decorative continuous coatings for various types of supports and surfaces.

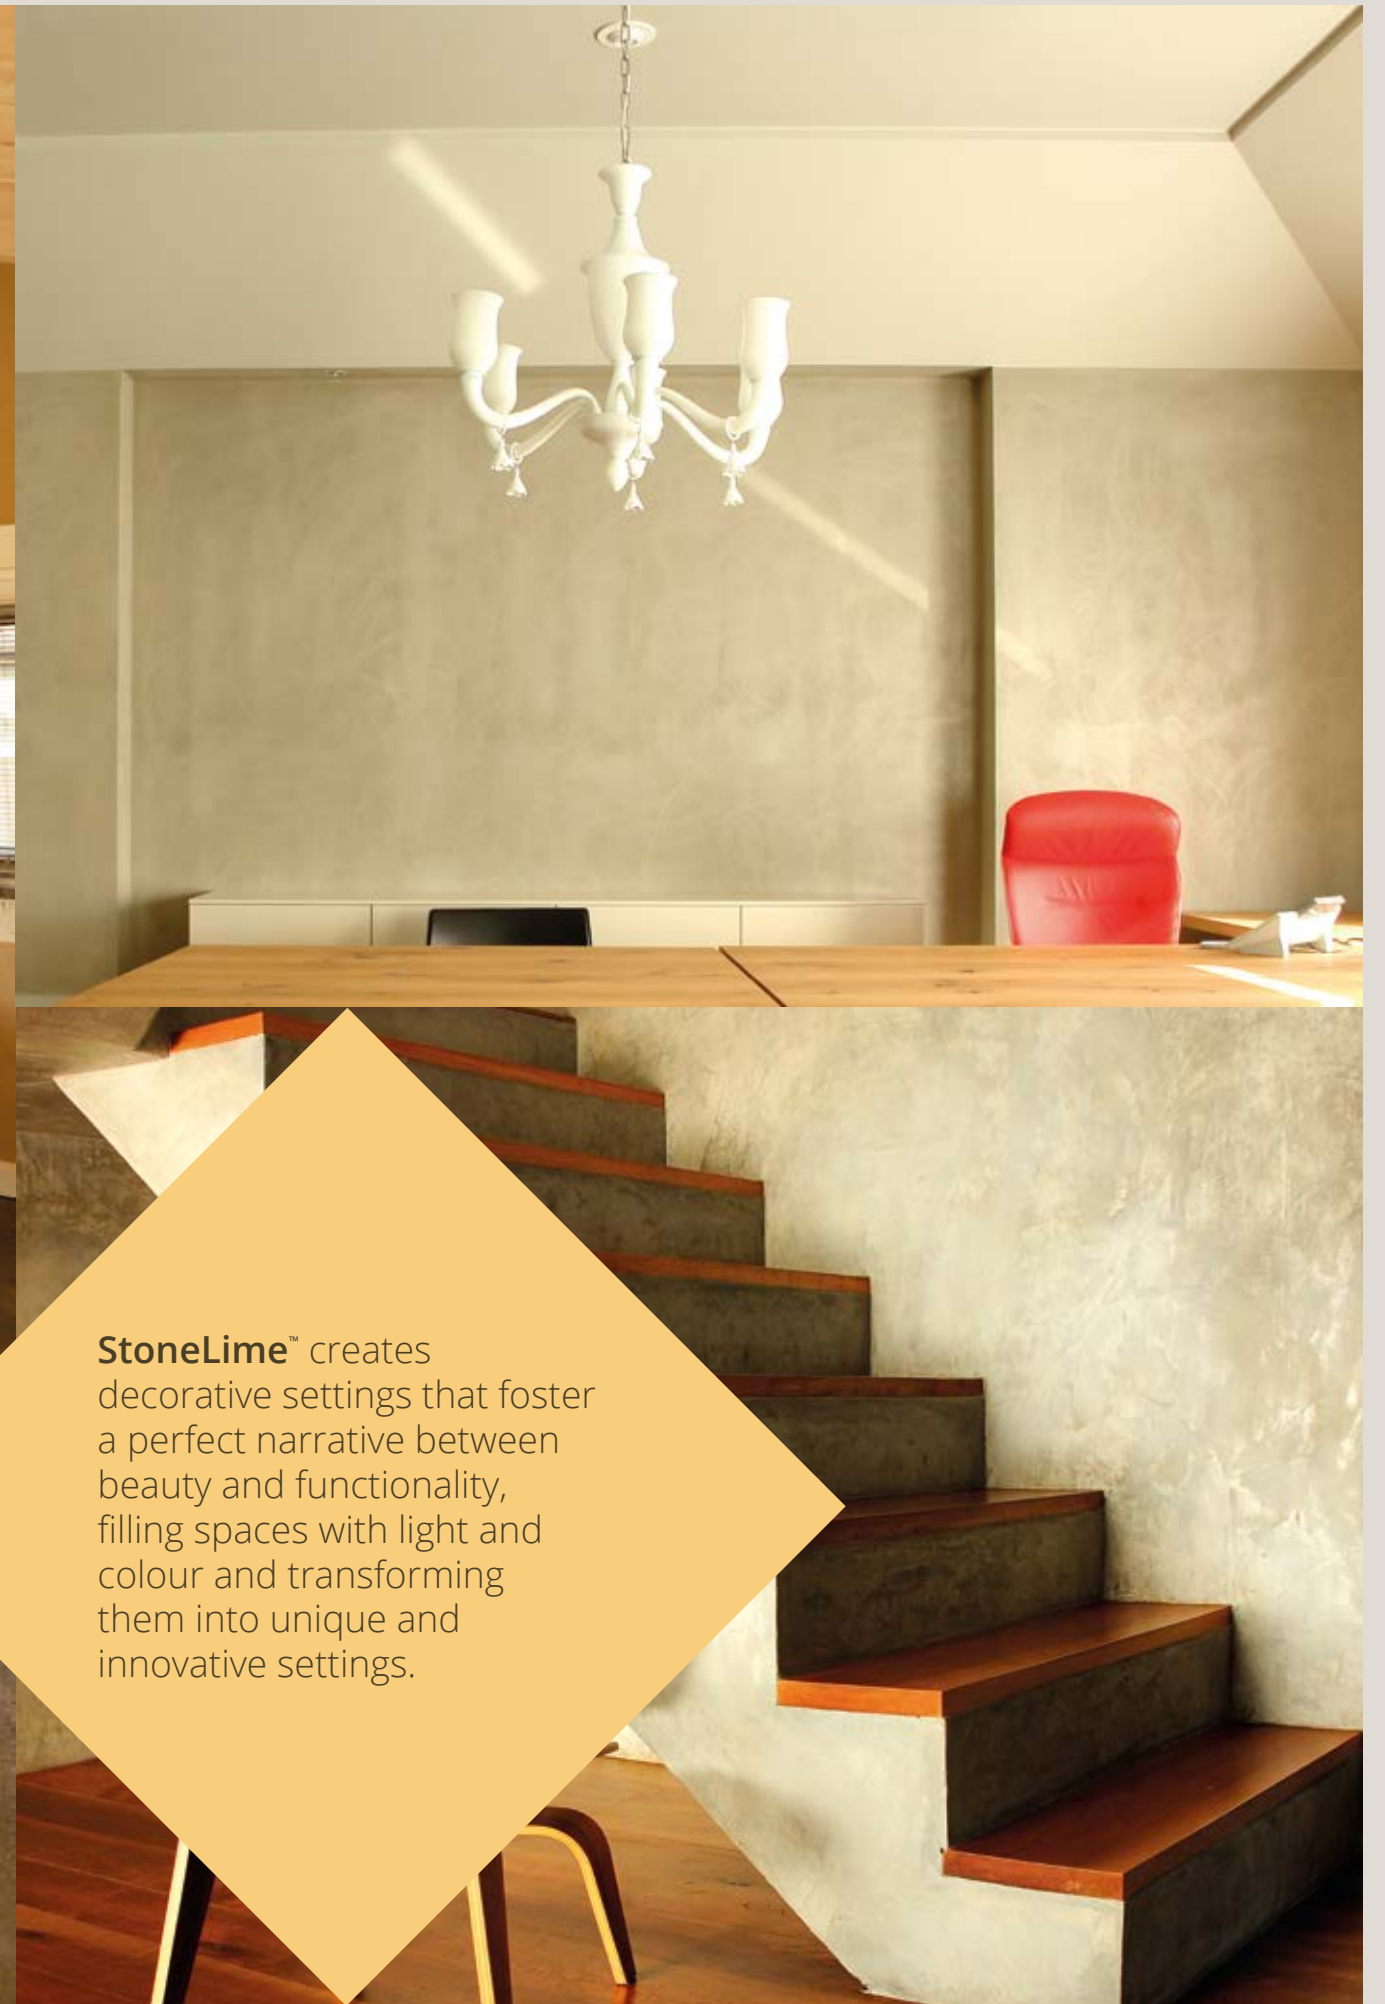

**StoneLime™** creates attractive, elegant surfaces. Its huge variety of colour tones and exclusive effects add a splash of colour that enhances any room.

Artists, designers, decorators, interior designers, architects and landscapers can create stylish ambiances with the **StoneLime™** touch that are to die for.

**StoneLime™** creates decorative settings that foster a perfect narrative between beauty and functionality, filling spaces with light and colour and transforming them into unique and innovative settings.

**StoneLime™** can be used on floors, ceilings or walls to improve any room and turn it into a showcase for the latest trends in interior design and decor.

The best cutting-edge fashion is featured in interior design projects created using **StoneLime™**, bringing natural beauty to every project and adding real value and an exceptional effect to each project.

Its resistance makes it the perfect material for creating continuous pavements with a design flair and no more than 5 mm thick, with full guarantees.

**StoneLime™** is so easy to use and its exclusive aesthetic effects and outstanding technical features make it the perfect ornamental solution for architects, decorators and all manner of construction and restoration professionals.

**StoneLime™** can be applied to floors, walls or ceilings and because it adheres so well to all types of surfaces and materials, it can easily be used to reform and remodel spaces without the need to demolish or remove existing materials. These tricky tasks are simply done away with.

**COLOUR  
CHART**

# COLOUR CHART

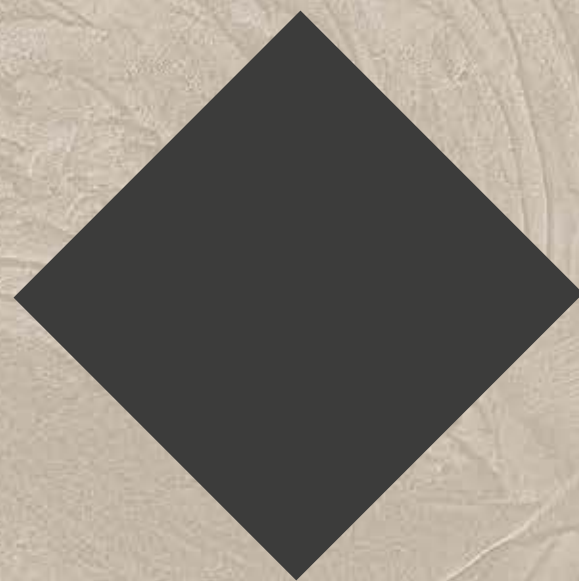

StoneLime™ is a decorator's best friend, with a palette of colours that includes exclusive tones to create ambiance.

Choose the colour you like most.
